_____

Odoo Technical and Functional and Implementation

Software engineer with 7 years of experience in the field of technology and business development in general, and 4 years in the field of developing, implementing and managing the functions of the Odoo ERP system,I always work to find long-term solutions and be careful in dealing with data and renewing tools without harming the work mechanism, and I always look for the safest and most reliable path for the client.

CORE PROFICIENCIES
_____

- Odoo Development.	- Web Development.	- Information Technology Support
- Odoo Functions.	- Business Development.	- Basics Cloud Service.
- Odoo Implementation.	- Business Analysis.	- Basics Networks.

EXPERIENCE
_____

-Business Horizons Company in the Kingdom of Saudi Arabia.   2021-2022

mission:
1 - Collecting customer requirements, working on them and adding them.
2 - Supervising the project until its delivery and setting the plan and time period.
3- Training users to deal with the system and suggesting the best solutions.
Work done:
The number of systems that were worked on during this period reached 12 systems. Each system differs according to the nature of the field of work that the system serve.

-Pinnacle Company for Multiple Activities in the Sudan , Khartoum.   2020-2021
mission:
1- Analysis of customer requirements.
2- Working on OdooERP by programming its modules in the Python language.
3- Training users and solving their technical problems in the program.
4- Managing client servers (Virtual Private Server), installing and managing them.
5- Analyzing the system and making a time plan for it.
6- Project management and assignment of tasks to programmers.

-Freelance work as a systems developer and IT services supporter,   2016-2020

mission:
1- Searching for points of sale, shops, and cafes that need an Web site or Odoo system or installation of surveillance cameras or networks.
2- Analyzing the customer's requirements, then studying its work and then implementing it. (There are many projects in all of these funds that have been implemented for clients outside and inside Sudan during these four years).
